Summary:
I finished courses at Hillel IT School. Have good knowledge of Html, Css, JavaScript, React.js and a little bit of Node.js. Looking for a position of front end developer. What I love most in this profession is to look at the result of my work, it inspires me to do it better and develop in this field.

My skills:
- HTML: semantics ,specification, rubber and adaptive layout, BEM methodology
- CSS: flexbox, Grid, Scss, transformations, transitions, animations. bootstrap, mui
- Git, Github
- Gulp, Webpack
- RegExp, WebSocket, Cookie, LocalStorage
- Figma, Adobe Photoshop
- JavaScript(primitives, objects, arrays, functions)
- Skills of manipulating with DOM tree
- Basic programming patterns
- OOP in Javascript
- REST API
- MVC/MVP/MVVM architecture
- Library React for SPA
- Principles of routing on the example of the library react-router
- Save the state of the program on the example redux and redux-thunk

- Hillel Course, Frontend Pro (09.12.2021 - 19.04.2022)

Review my teacher from Frontend Pro course:

"Serhii is the most responsible and proactive student!
As part of the course, I grasped information as quickly as possible.
During the course, he asked precise questions to understand new information.
Successfully completed the course with the highest score, taking 1st place in the ranking"

Additional Education, Languages
- Danish school, Danish language, 2.5 years
